Passionate, motivated and organized french Front-End developer with 3 years of experience in security and e-commerce industries, refactoring website to be responsive, building mobile and desktop applications.

JOBS

Inwebo - *Front-End Developer (march 2018 - present)*

✳ Maintain and develop new features on applications (desktop: electronjs, mobile: ionic v1 (legacy applications angularjs), ionic v3 and v4 (angular))

✳ Create a microserver with expressjs in an electron application establishing connections between browser and another desktop application

✳ Work on process of customization of applications (mobile and desktop) in order to produce and deliver to client their own packages of the main applications(variabilization, templating(with mustachejs))

✳ Industrialize the builds of customized applications (mobile and desktop) using a nodejs script. The script clones a branch from the project's repository, builds artefacts of all customizations available, deployes artefacts on a server and notifies by email the report the status of build and deployment

✳ Refactorization of the administration console to ionic 4 and electronjs consuming Inwebo's api

Beauteprivee - *Front-End Developer (2017-2018) -* *1 year*

✳ Work on responsive refactoring of the website using Foundation css framework

✳ Improve the front environment development (implement a package manager, task runner, bundler, transpiler)

✳ Integrate templates winners from ab testing process in PHP

✳ Implementate css code structure in terms of css classname to harmonize the project

✳ Create report regarding best practices in ecommerce environnement (scalability, SEO, performance)

✳ Update jquery version and librairies related using it as dependency

Dailymotion - *Office Manager / Executive assistant (2014-2017) -* *3 years*

Numberly - *Office Manager / Executive assistant (2013-2014) -* *1 year*
